4. Do not close this window till you receive the email.

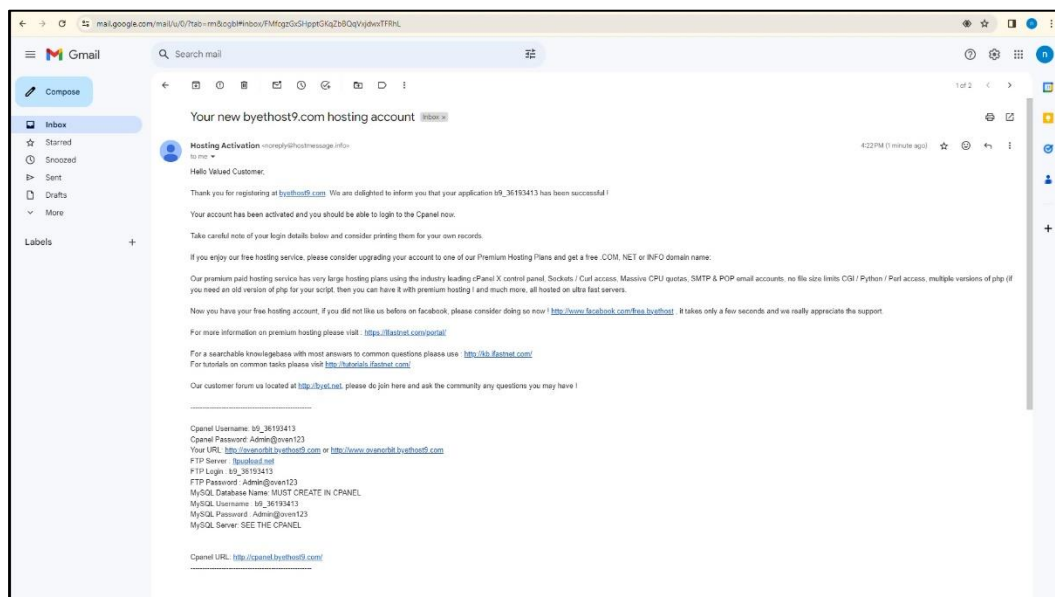

5. Check the Spam Folder email dos not show in the inbox.

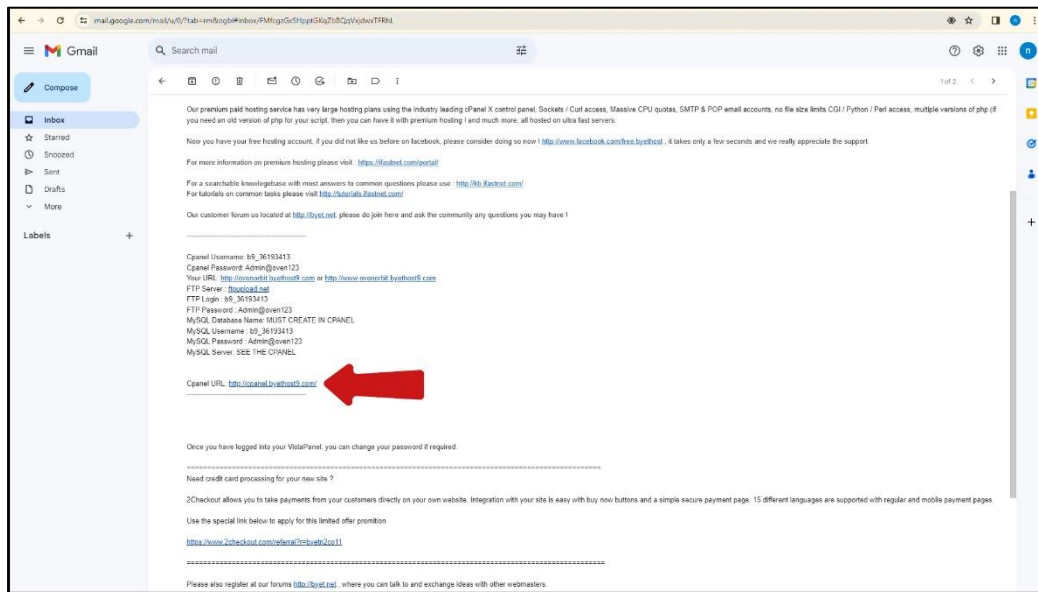

6. Click on the link in the mail to activate your account.

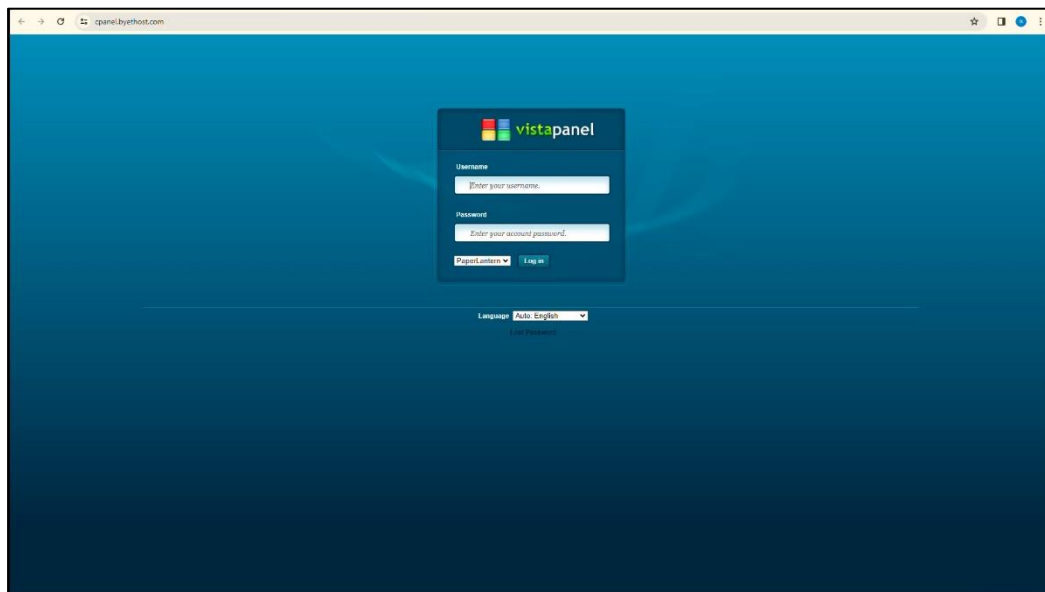

7. You will receive another email with your Cpanel account details.

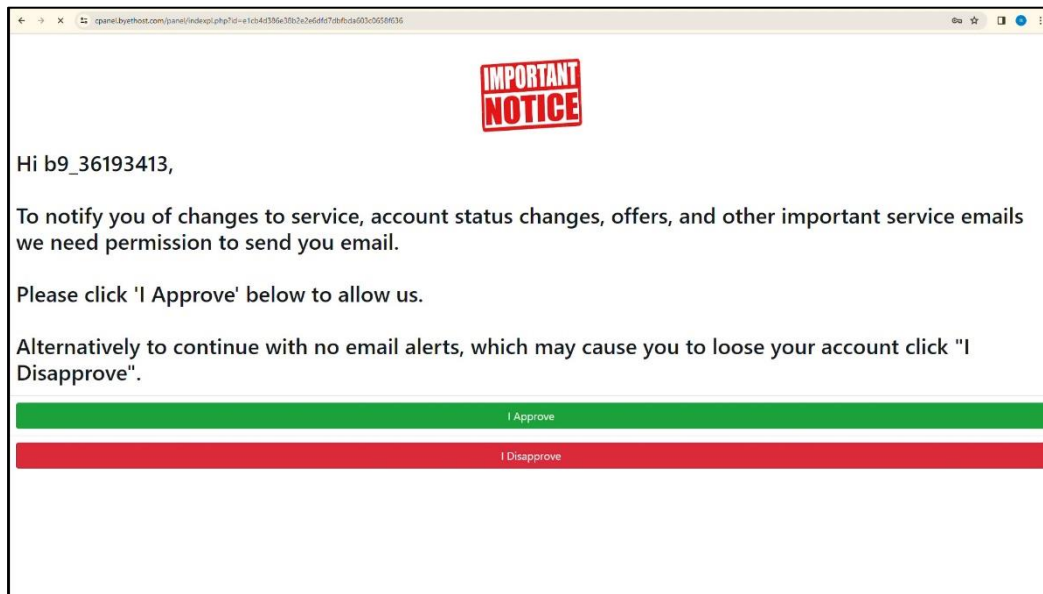

## 8. Click on the Cpanel URL.

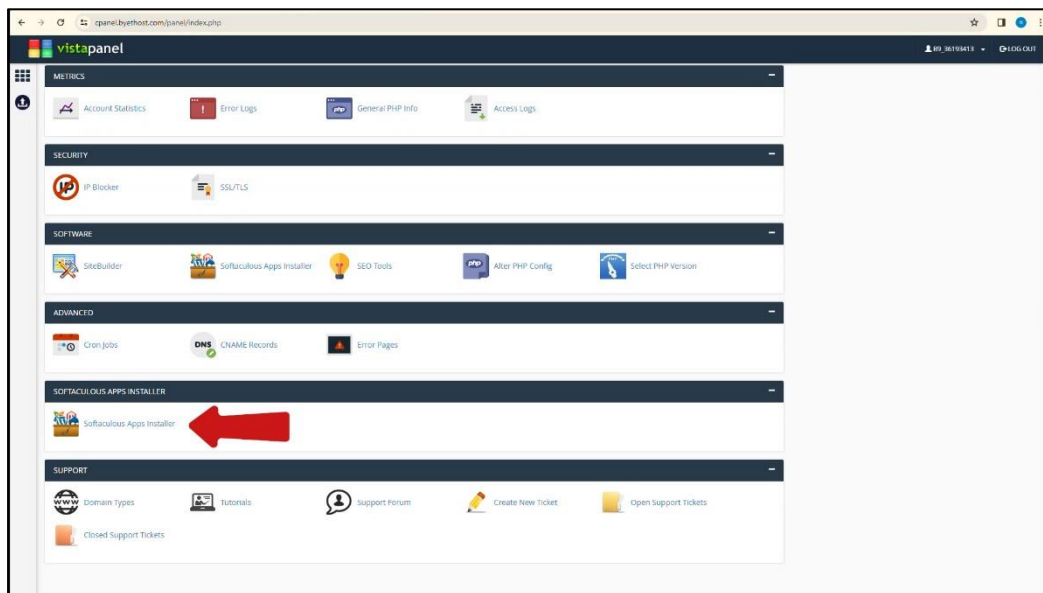

## 9. Provide the Cpanel Username and Password received in the email.

10. Click on 'I Approve' or 'I Disapprove' based on your choice.

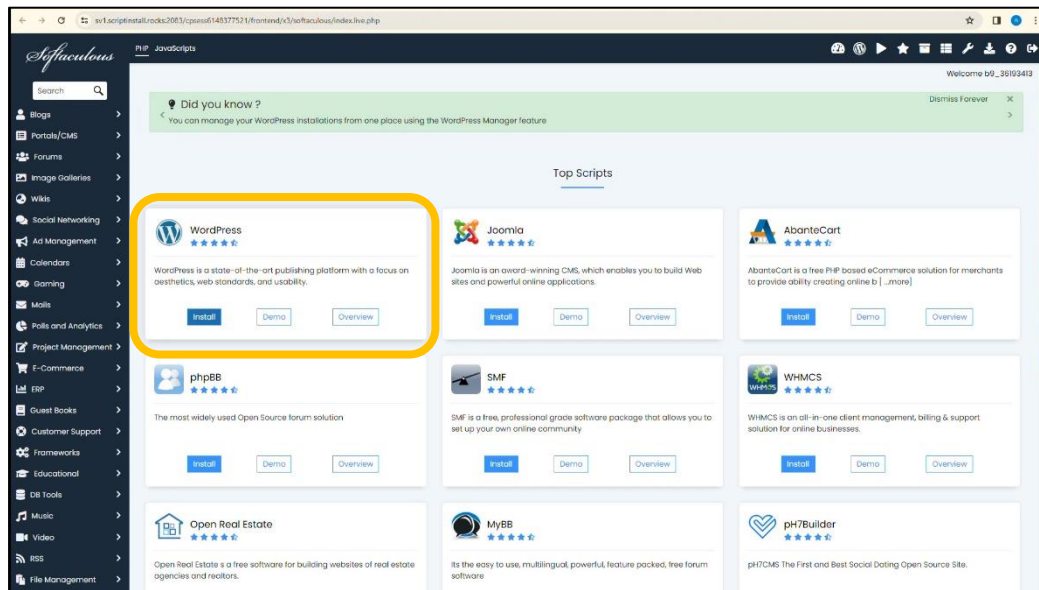

11. Your Cpanel will be open and scroll down to the bottom and go to Softaculous Apps Installer.

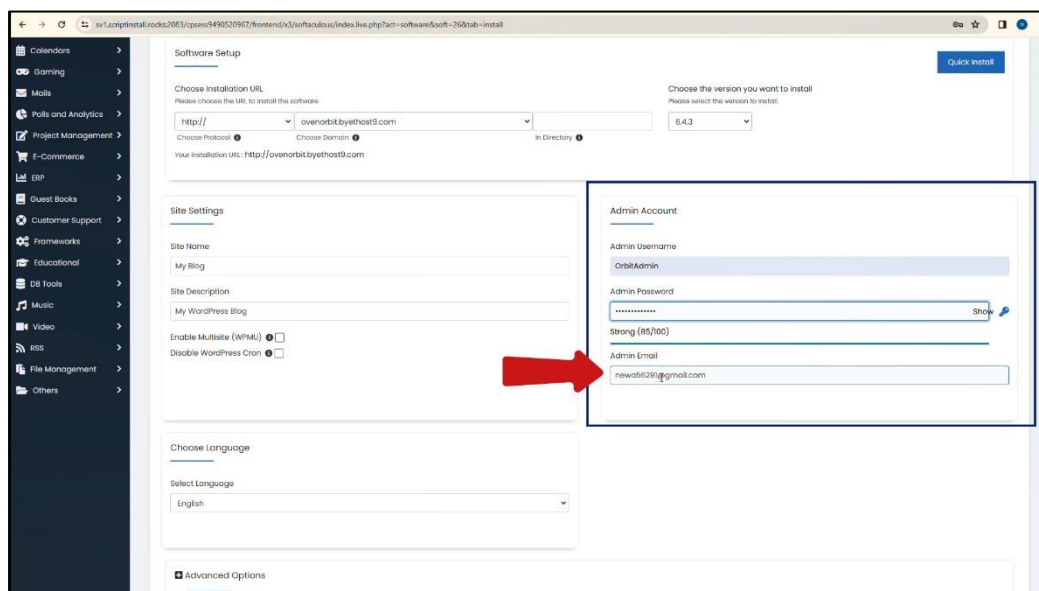

12. Go to WordPress and click on 'Install' button.

13. Provide Admin Username and Password as you prefer.

**\*\* You must remember the username and password to login to the WordPress Dashboard.**

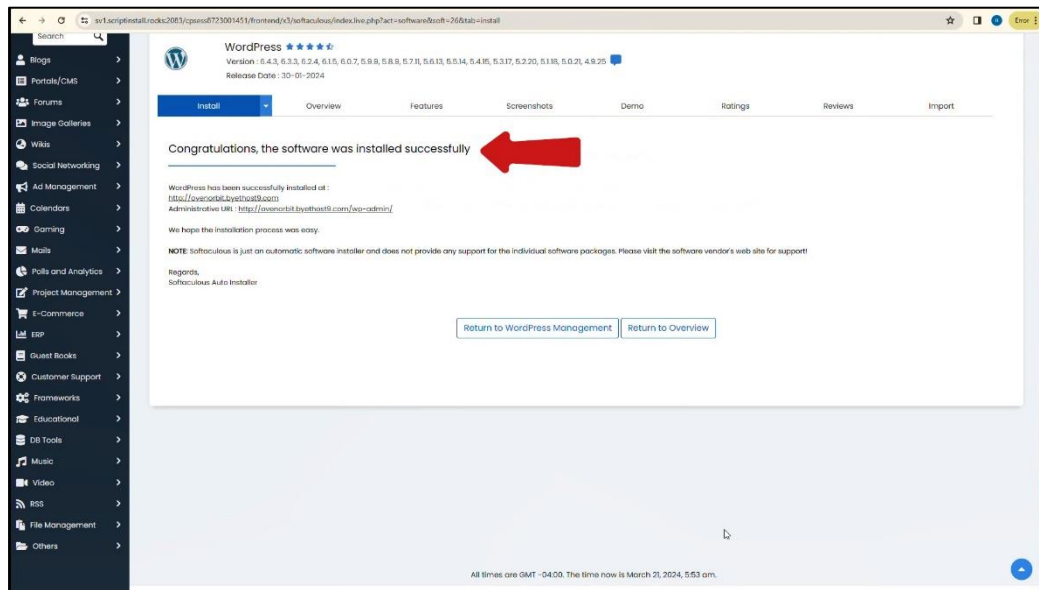

14. Click on 'Install' button at the bottom of the webpage.

The screenshot shows the WordPress installation interface. On the left is a dark sidebar with a menu. The main content area has several sections: 'Site Name' with a text input 'My Blog', 'Site Description' with a text input 'My WordPress Blog', 'Enable Multisite (WPML)' and 'Disable WordPress Cron' checkboxes, 'Choose Language' with a dropdown menu set to 'English', 'Advanced Options' with a checkbox, and 'Select Theme' with a 'Manage Theme Sets' button. On the right, there are fields for 'Admin Username' (OrbitAdmin), 'Admin Password' (masked with dots), 'Strong (85/100)' strength indicator, and 'Admin Email' (newa5625@gmail.com). At the bottom center, a red arrow points to a blue 'Install' button. The footer at the bottom of the page states: 'All times are GMT - 04:00. The time now is March 15, 2024, 10:33 am.'

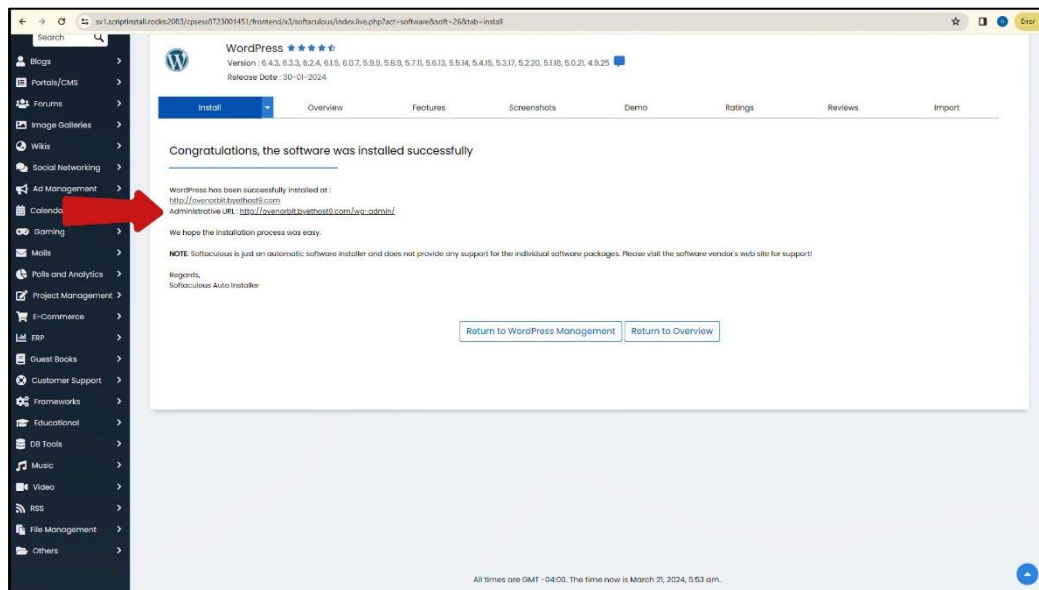

15. Wait until the WordPress is installed.

The screenshot shows the WordPress installation progress screen. The top section displays the WordPress logo, version (6.4.3), and release date (30-01-2024). Below this is a navigation bar with tabs: 'Install', 'Overview', 'Features', 'Screenshots', 'Demo', 'Ratings', 'Reviews', and 'Import'. The main content area shows a progress bar labeled 'Copying files and folders (18 %)' with a blue bar indicating the progress. Below the progress bar is a note: 'NOTE: This may take 3-4 minutes. Please do not leave this page until the progress bar reaches 100%'. The footer at the bottom of the page states: 'All times are GMT - 04:00. The time now is March 21, 2024, 5:53 am.'

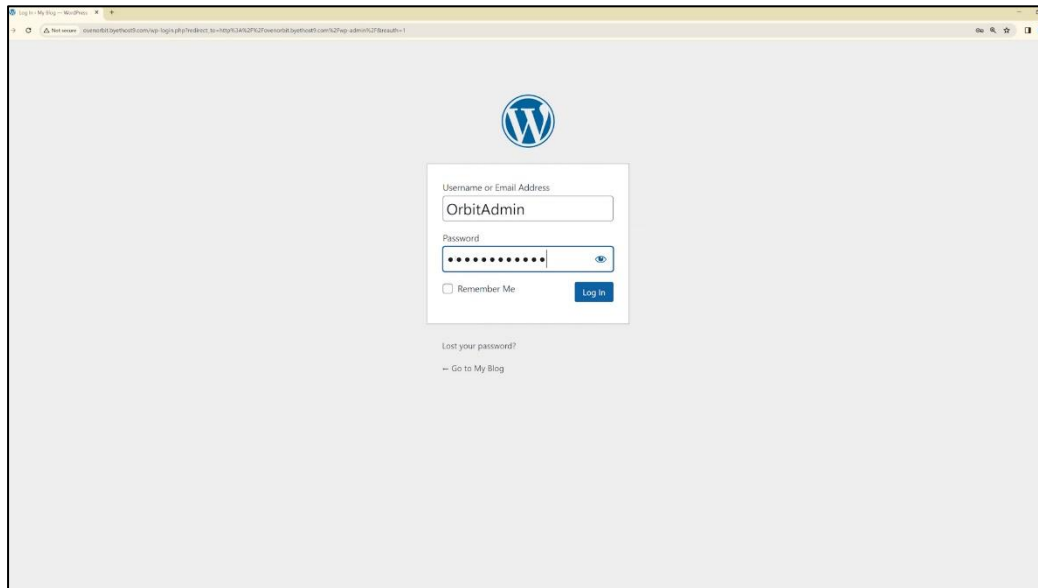

16. It will display the success message once the WordPress is installed.

17. Click on the Administrative URL to login to the WordPress Dashboard.

18. Provide the Username and Password you have given while downloading WordPress and click on 'Login' button.

19. You will be able to access the WordPress Dashboard.
