

TUTORIAL 07

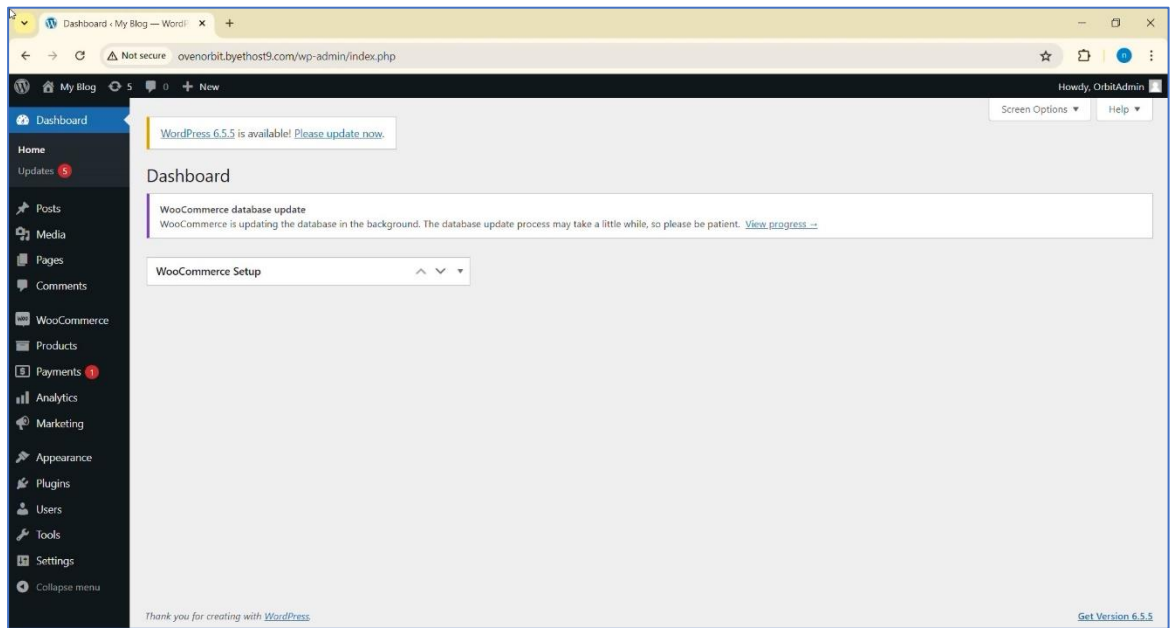

WordPress Plugin Installation

Web Design Using WordPress

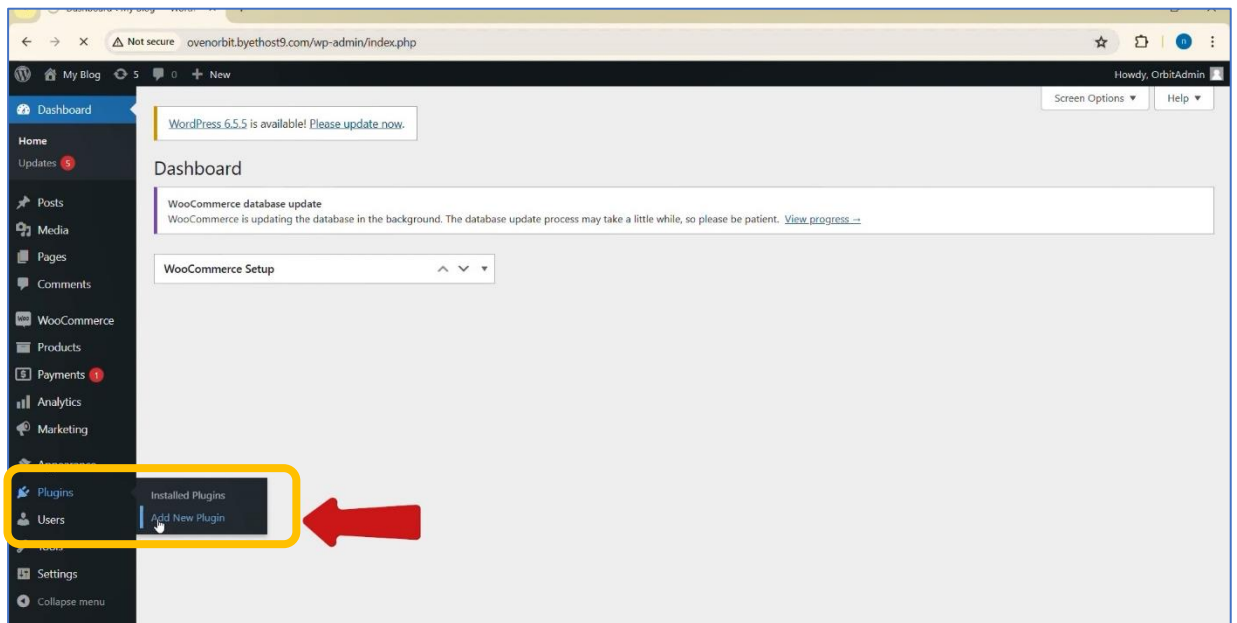

Beginner Level

1. Log into WordPress Dashboard.

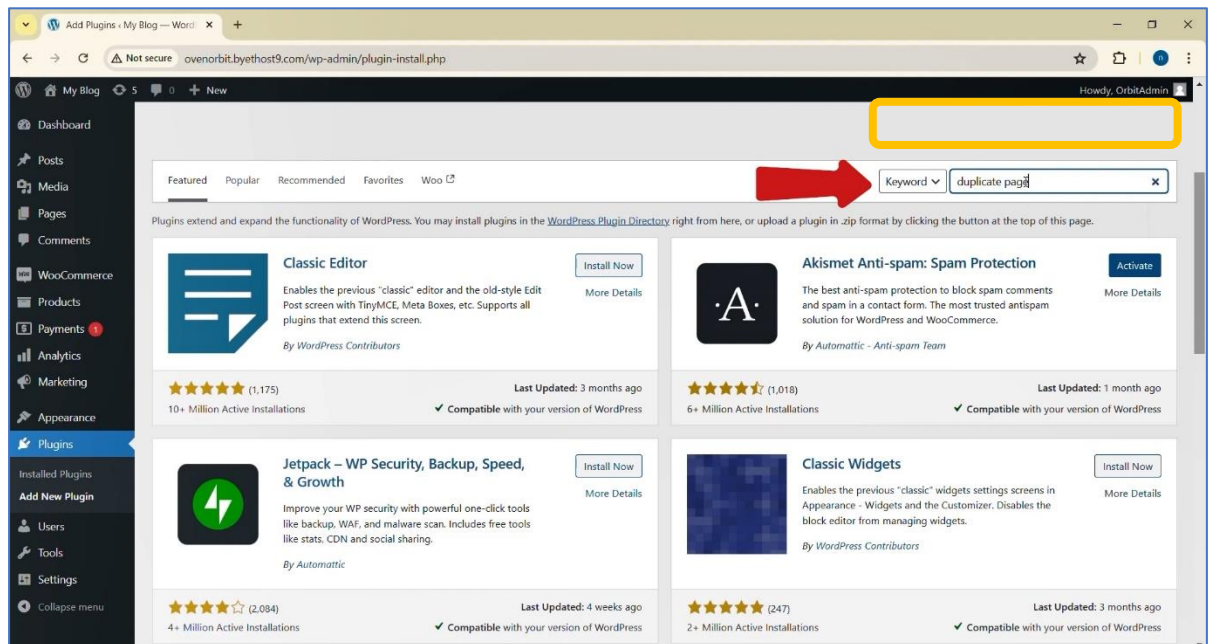

2. Go to Plugins → Add New Plugin

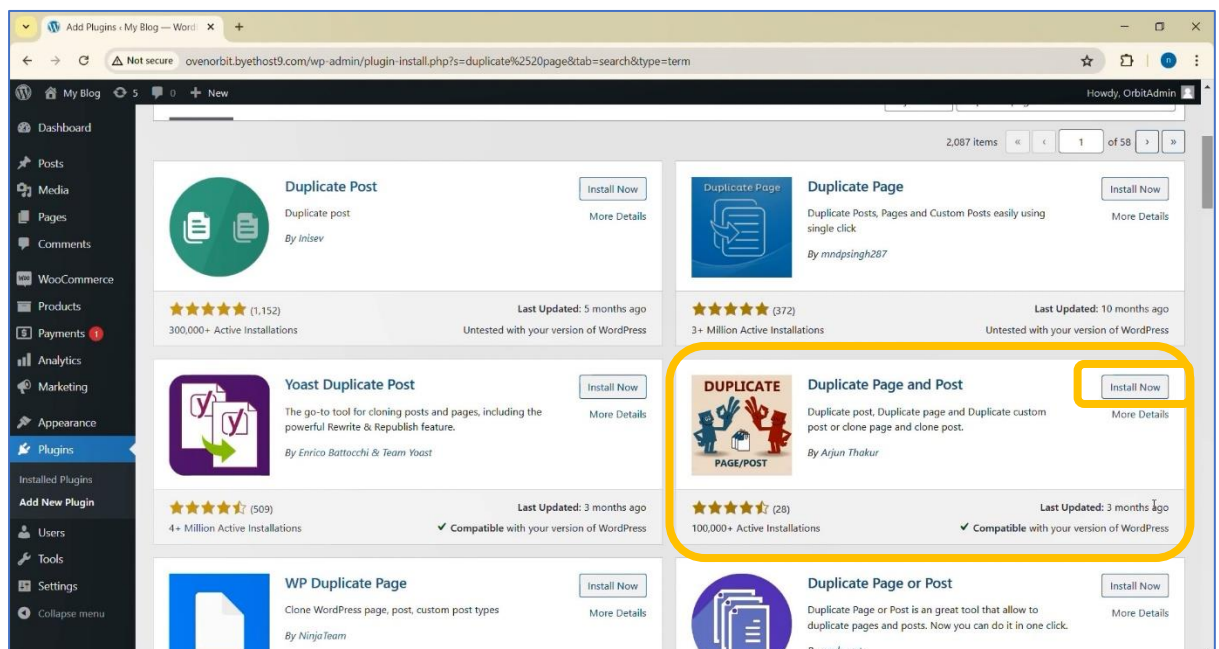

3. Search for a plugin using a plugin name or a keyword.

Eg: Duplicate page

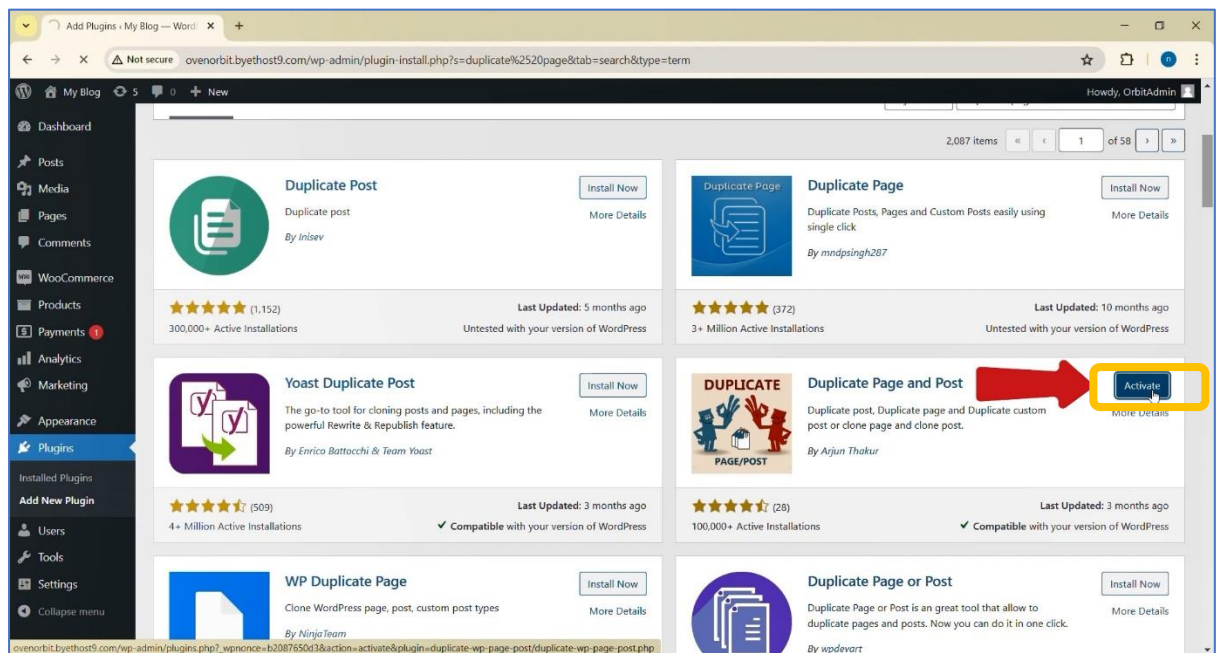

4. Select a plugin that suits your requirements and click on the Install Now button.

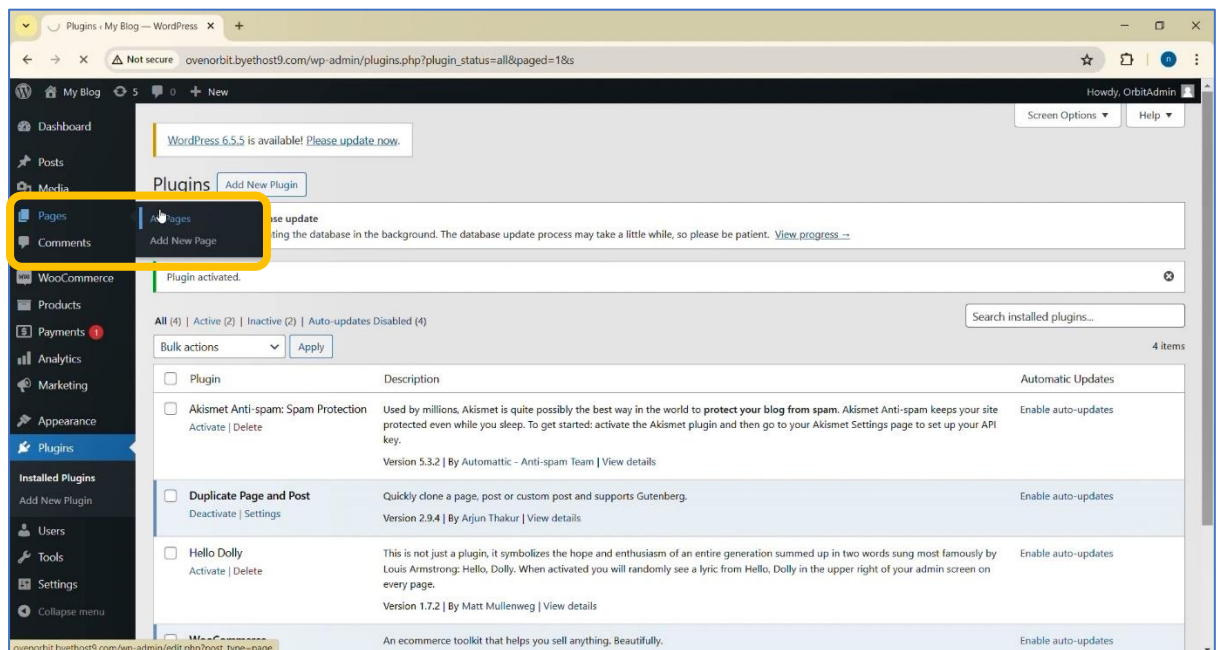

**** Check the compatibility with your WordPress version.**

5. Click on Activate button.

6. Go to Pages → All Pages

7. Click on Duplicate and duplicate the page you want.
